PROFILE SUMMARY

As an aspiring cloud engineer, I have hands-on experience in AWS and cloud-based projects. I am interested in building scalable solutions and applying my skills in real-world environments.

SKILLS

- Cloud & Tools - Amazon Web Services (AWS), Linux Basics
- Programming - Python
- Fundamentals - Networking Basics, Internet of Things (IoT), Fog Computing, Edge Computing

EDUCATION

Bachelor of Technology, Computer Science (Cloud Computing and Automation)
Vellore Institute of Technology, Bhopal 2023 – 2027

Senior Secondary (CBSE)
Ryan International School, Ghaziabad 2023

PROJECTS

MediDoc – Healthcare Web Platform

- Designed a healthcare application for patient–doctor interaction and medical record management with planned cloud-based architecture
- Included features like appointment scheduling, digital records, and secure user authentication

Wearable Fall Detection System (Proposed)

- Conceptualized an IoT-based wearable system to detect falls and trigger alerts for elderly safety
- Planned real-time monitoring and emergency response using sensor-based data

EXPERIENCE

Research Intern

Defence Research and Development Organisation (DRDO), New Delhi

May 2026 – July 2026

- Researched **Fully Homomorphic Encryption (FHE)** techniques for secure computation over encrypted data.
- Implemented the **BGV Homomorphic Encryption Scheme**, covering key generation, encryption, decryption, homomorphic addition, multiplication, relinearization, and modulus switching.
